

ULTIMATE FREEDOM WIRELESS ADAPTER:

Avcomm International, the nation's leading manufacturer and distributor of state of the art noise reduction headsets, intercoms, radios and communications systems for Aviation, Safety, Racing and Industrial applications, is proud to announce the innovative Ultimate Freedom Wireless Adapter (UFWA).

Other wireless adapters under development cannot match the Ultimate Freedom Wireless Adapter's 200-350 foot range, and NO other wireless headset adapter comes close to the noise reduction capability, and clarity, of the Ultimate Freedom Wireless Adapter (UFWA).

Available for use with most commercially available headsets, the versatile Ultimate Freedom Wireless Adapter is designed for use in multiple applications, including railroads, fire/public safety, military, racing, agriculture, heavy industry and aviation, particularly ground crew. The interchangeable cable option allows you to plug the transmitter into vehicle intercoms, portable or mobile radios. The Ultimate Freedom Wireless Adapter has passed exhaustive, extensive testing under real world conditions, with flying colors. Avcomm...you can hear the difference!

UFWA FEATURES:

- Rugged Design for Industrial Professional Applications
- Auto Power Shut Off with interactive application
- Easy Pairing Process
- Auto reconnect when the adapter is within range
- Battery Life - 24 hours
- Battery Charging Time - 3 hours
- Dual Color LED for battery level and connection state
- Tone alert for low battery and battery state
- Replaceable Li-Ion battery
- Bluetooth Transmission - Class 1
- Bluetooth Version - 2.0 (Encrypted)
- Range - 300 ft. typical (free space)
- Frequency - 2.400 to 2.485 GHz
- Maximum Transmit Power: +6dBm
- Minimum Transmit Power: -27dBm
- Receive Sensitivity: Better than -86dB

WIRELESS TRANSMITTER FEATURES:

- Rugged Aluminum Extrusion Design
- Wide Power Supply Range: 6 ~ 35V
- DNR[®] to reduce noise
- Easy Pairing Process
- RP-SMA antenna connector for easy antenna connection
- Mini XLR connector for universal interface for most fire engine intercom systems
